INTRODUCE ABOUT MYSELF

I am a full-stack developer with 3 years of programming experience. My strengths are front-end frameworks. I'd love to work with Vuejs, Reactjs.

PROJECTS

Graduation thesis project

2020

<https://github.com/VuThanhThien/VuThanhThien-KLTN-QLNCKH>

Project management of scientific research at the university, using Vuejs, ASP.NET core, MariaDB, Hangfire,...

Bixgrow

2020

<https://bixgrow.com>

<https://apps.shopify.com/bixgrow-affiliate-marketing>

Front-end Developer

As the only Front-end developer and designer. I'm in charge almost all of FE tasks.

- Build base component
- Create a page for users to freely customize the registration page and use the register page for each shop's own shopify store page.
- Create a custom page of promotional popups and use scripts to insert into shopify.
- Localize the language and allow the user to customize editing translation at their own discretion.
- Create landing page [Bixgrow.com](https://bixgrow.com)

Setel

2021- Now

SKILLS

HTML, CSS, SCSS

Bootstrap, Tailwindcss, Antd

Wordpress, Elementor

Vuejs, Reactjs

Javascript, Typescript

Nestjs

MySQL, MongoDB

Git

Photoshop
